**A Selected List of Gladiolus Cultivars**  
**Classified for Show Purposes**  
**2024**

**NAGC GLADIOLUS CLASSIFICATION COMMITTEE**

David Selinger – Chairman

713 Yorklyn Rd., PO Box 456, Hockessin, DE 19707

[daselinger@gmail.com](mailto:daselinger@gmail.com)

Committee: Cliff Hartline, Sue Jackson, Dave Kollasch, Burton Scripture,  
James Otto, Reg Powys-Lybbe, Lew Wallace, Karin McDougall, John  
Alleman, Lyle Madeson and John Meyer

**CLASSIFICATION LIST**

FOR A MORE COMPLETE LIST GO TO  
[GLADWORLD.ORG/Classification](http://GLADWORLD.ORG/Classification) Web Version

Note: A seedling is any cultivar that has not been previously introduced by offering it for sale. The Classification List includes no seedlings even though they may have been named and registered with the North American Gladiolus Registry.

A Recent Introduction is any cultivar introduced within the last five years with a termination of its showing in this category based upon its period of availability for purchase and growth by the North American buying public.

**KEY TO CULTIVAR LISTS**

Size and color classes are indicated by the code number. The first digit indicates the floret size group: the last two digits represent the color class.

Originator's name follows, and then the year the cultivar was first available at North American purchasers. Followed by a rough approximation of the blooming season.

VE (Very Early) – under 70 days

E (Early) – 70-74 days

EM (Early Midseason) – 75-79 days

M (Midseason) – 80-84 days

LM (Late Midseason) – 85-90 days

L (Late) – 91-99 days

VL (Very Late) – 100 days or more

These dates are for large corms.

Smaller size corms will bloom somewhat later.

Size Classification:

Miniature	100	Florets under 2 ½ inches
Small	200	Florets 2 ½ but less than 3 ½ inches
Medium	300	Florets 3 ½ but less than 4 ½ inches
Large	400	Florets 4 ½ but less than 5 ½ inches
Giant	500	Florets 5 ½ inches and larger

Size is measured across the widest part of the first floret after the inflorescence is fully opened.

Color Classification:

Color	Pale	Light	Medium	Deep	Other
White	00				
Green		02	04	06	
Cream	10				
Yellow		12	14	16	
Buff	20				
Orange		22	24	26	
Salmon	30	32	34	36	
Pink	40	42	44	46	
Red		52	54	56	58 Black Red
Rose	60	62	64	66	68 Black Rose
Lavender	70	72	74	76	78 Purple
Blue	80	82	84	86	88 Violet
Tan/Brown	90	92	94		98 Brown
Grey				96	

Classification numbers ending in an odd digit (1,3,5,7,9) indicate “with conspicuous markings” for the color indicated by the even number immediately preceding the odd number. Where reduction of the number of color classes is desirable, the objective may be obtained by combining closely related color classes.

Classification example:

375 = medium sized (300) floret, major color is medium lavender with a conspicuous marking (e.g. white throat, darker blotch, prominent edging (picotee) or combination)
